Sonja Rossmann is a Junior Scientist at the Institute of Public Health, Medical Decision Making and Health Technology Assessment, Department of Public Health, Health Services Research and Health Technology Assessment at UMIT TIROL - University for Health Sciences and Health Technology in Hall in Tirol, Austria.

She completed her Bachelor studies in Sport Science at the German Sport University Cologne in 2019. To continue her education, she moved to Austria and gained a master's degree in International Health and Social Management at the Management Center Innsbruck. She started working for the German Cooperation for International Development (GIZ) where she supported the Secretariat of the International Alliance against Health Risks in Wildlife Trade. In September 2023, she joined the Institute of Public Health, Medical Decision Making and Health Technology Assessment at UMIT TIROL.

Her main research interests include the field of climate change and health, with a focus on health impacts of climate change mitigation and adaptation strategies. She is also interested in the research fields of One Health, Planetary Health, Nature-based Solutions, and Public health Interventions.
